Farmers urged to rally behind Red Tractor advertising campaign
Red Tractor Assurance is calling on the whole farming industry to get behind its first ever national television advertising campaign which launches in mid-September.

Explaining to consumers what the logo stands for is the main thrust of the advert with the ultimate goal of encouraging more shoppers to buy Red Tractor assured products.

Market research shows most consumers recognise the logo but about half understand the standards behind it.

Those who do understand are twice as likely to buy a product bearing the logo.

Farmers are being called upon to harness the opportunity to talk about farm-assured food and increase the reach of the campaign as widely as possible.

Spearheaded by the television advert, the campaign will be synchronised and across magazines, websites and social media channels.

Farmers are being asked to share the content, engage with the media or simply explain to family and friends what the Red Tractor logo means to them.

The time and channel of the first advertising slot will be announced towards the end of August.

Crime Prevention Advice from West Mercia Police

Protect Your Identity

- There have always been scammers out to empty your pockets, but with the age of the internet, they've managed to get even more clever into tricking you out of your cash.
- Your identity is valuable. Fraudsters know this. They can use the information you share online to pretend to be you and apply for bank accounts, mobile phones, loans or a wide range of other products or services in your name.
- As a victim of identity fraud, you might not realise you've been targeted until a bill arrives for something you didn't buy, or you experience problems with your credit rating, for example. To carry out this kind of fraud successfully, fraudsters usually have access to their victim's personal information, which they obtain in a variety of ways – such as through hacking and data loss, as well as using social media to put the pieces of someone's identity together.
- Did you know 88% of fraudulent applications for bank accounts and financial products are made online?
